

## **Grady, Stonewall and Booker Bike/Ped Project**

November 11, 2005 Update

Fayetteville received \$500,000 in federal funding through the Transportation Enhancement (TE) program to be combined with \$125,000 local matching funds for construction of paths and sidewalks to improve access to schools. The project will include a six-foot to eight-foot wide sidewalk on Grady Ave. between Hwy 85 and Hwy 54, a five-foot wide sidewalk on Stonewall Ave. between Jeff Davis and the Lanier Street turnaround, and a five-foot wide sidewalk on Booker Street between Stonewall Ave. and East Fayette Elementary School. The design is nearly complete and construction is expected in 2006.

We are grateful to Sam Wellborn, our GDOT board member, for approving the funding.

Don Easterbrook is the City contact at 770-719-4156.
